

Confidential Assistance

for you and your family

How EAP works:

You simply pick up the phone to speak with one of our full-time staff. Private, face-to-face sessions are available for personalized assistance and solution-focused counseling. All EAP services have been pre-paid by your organization.

What if additional treatment is needed:

An EAP clinician can help you secure longer treatment if necessary, and can make a referral. Your health benefit will typically offset the cost of such care.

However, you may prevent larger problems through early intervention at the EAP and not require further treatment.

The fact is that everyone can utilize the EAP service at some point in their lives.

No question is too large or small.

Personal Testimonies.

The fighting in our family was getting worse.

The EAP helped us to start talking again.

19 year old female office worker

When I was depressed and I didn't know where

to turn, the EAP was there to help.

37 year old male administrator

When my Mom wasn't able to take care of herself

anymore, I was overwhelmed...the EAP put me

in touch with someone who could help.

53 year old female factory worker

I had no idea my drinking had gotten so out of hand.

The EAP helped me understand that my

drinking was a problem.

32 year old male union member

*Issues not covered by
traditional health benefits
may be covered by the EAP.*

Confidentiality.

Your confidentiality is our utmost concern. No one will ever know when you call the National EAP, unless you choose to tell them. Information cannot be given to your employer, union or anyone else, unless you provide written permission.

The National EAP, Inc. abides by all state and federal laws governing confidentiality. When there is a threat to self, others, or a child is at risk of abuse or neglect, the law may require the situation be reported to the appropriate authorities.
