Thousands of Ideas. Millions in Grants.

## SEE, TOUCH, HEAR & LEARN-Long Island Head Start needs SMART Boards

### Dear Friends of Long Island Head Start,

Last month Long Island Head Start submitted a proposal to the Pepsico Referesh Project to obtain \$50,000 for the purchase of SMART Boards for several classrooms. SMART Boards, also known as electronic blackboards, are an interactive technology whereby children become actively engaged learners. SMART Boards engage numerous learning styles by creating a vivid and fun-filled experience that inspires a love of learning for a lifetime. Many public schools on Long Island already have them and it would be wonderful for Head Start children to have this exposure before they enter kindergarten.

Pepsico accepts 1,000 ideas each month to appear on the Pepsico Refresh Project website where the community votes on which proposal will be funded. Our proposal should be on this website starting July 1st. This is where we need your help and quick daily support.

- On **July 1st**, go to the Pepsico Refresh Project website [www.refresheverything.com](http://www.refresheverything.com)
- Click on EDUCATION
- Click on \$50,000
- Scroll down until you see our idea "SEE, TOUCH, HEAR, AND LEARN - Long Island Head Start needs SMART Boards."
- Click to vote for us!
- Contact everyone you know (friends, family, neighbors) and please ask them to vote for us as well.
- Vote everyday from July 1st – July 31st. The proposal with the greatest number of votes will receive the \$50,000 grant!

Thank you for your support,  
Long Island Head Start
